PREFACE

This Directory is prepared under the "National Waste Minimisation in Malaysia", with the cooperation of the Japan International Cooperation Agency (JICA). The list is the result of responses to the invitation to register with Majlis Perbandaran Pulau Pinang, sent out in July, 2005. It is a compilation of recycling agents & buyers and recycling communities operating on Penang Island. It contains names, addresses and contact numbers, which are arranged in alphabetical order. This directory is by no means exhaustive but will be continually updated from time to time as the network expands. A brief explanation is also provided at the back pages on how to process certain types of recyclables for storing and collection by the agent or buyer.

The JICA Study Team acknowledges the efforts of the Penang Environment Working Group (PEWOG) for developing the first edition of recycling directory of recycling communities, agents and buyers in Penang entitled "THE RECYCLING WHEEL OF PENANG" in early 2005.

The JICA Study Team hopes that this edition will also benefit the different stakeholders involved in recycling activities on Penang Island.

A website is also prepared for the public to seek more information on recycling activities on Penang Island.

For further information, please contact:

SIMPLE 3Rs (Reduce, Reuse, Recycle)

FOR THE HOME

Reduce

Buying Wisely

- Do not go shopping without a shopping list; avoid impulse buying.
- Bring along your own grocery or shopping bags.
- Avoid buying items that are packaged in non-recyclable materials.
- Buy products with less packaging.
- Buy in bulk to reduce packaging as well as to save money.
- Avoid the temptation of requesting for new or extra plastic bags.
- Buy durable items that will last.
- Buy products that are refillable.
- Bring your own food containers (Tiffin carriers) when buying take-away food; avoid plastic bags and containers, and Styrofoam.

Activities At Home

- Avoid using disposable cutlery made of plastic and Styrofoam.
- Use reusable utensils instead of disposable ones.
- Use cloth instead of paper or tissue for cleaning.
- Minimize the use of disposable items that cannot be recycled; use cloth diapers, handkerchiefs and napkins instead.
- Do not cook more than you need; cook just sufficient food for meals.
- Store perishable food eg. bread, fruits in the refrigerator.
- Borrow, share and/or hire things that you only need occasionally.
- Share newspapers, magazines and books, if possible, to save costs and paper.
- Reduce junk mail by writing to companies and organizations to omit you from their mailing lists.
- Use rechargeable batteries that are friendlier to the environment.

Saving Energy & Natural Resources

Electricity

- Use the fan instead of air-conditioning whenever possible.
- Set air-conditioning to an appropriate temperature to avoid under cooling or over cooling.
- Seal all air leaks around windows and doors.
- Use energy saving bulbs whenever possible.
- Switch off lights and electrical appliances when not in use.
- Close the refrigerator door immediately after taking out necessary items.

Water

- Avoid using the hose to wash the car; use a pail instead.
- Clean floors with a mop instead of a water hose.
- Don't keep the tap running when brushing your teeth; use a cup instead.
- Install dual flush toilets to save water.
- Switch to low flow faucets and showerheads. Can save up to 50% of water used.
- Take a shower instead of a foam bath.
- Wash only with a full load when doing laundry.
- Check for faulty taps and pipes to prevent water leakage.
- Turn off the water tap tightly immediately after use.

PREPARING YOUR RECYCLABLES

Paper

- Tie into bundles
- Put loose paper into plastic bags

Plastic – Drink Bottles

- Remove cap
- Empty bottle
- Rinse
- Crush and store for recycling

Other Plastic Containers

- Empty contents
- Clean
- Store for recycling

Aluminium Cans

- Empty contents
- Rinse
- Dry
- Crush and store for recycling

Other Metal Containers

- Empty contents
- Clean
- Store for recycling
-

Glass

- Empty contents
- Clean
- Store for recycling

When Buying

Bring along

- own shopping bags
- tiffin carriers for takeaway food

Avoid Over-Packaging

- Is it necessary to have so many packages?
- Give a thought to how items are packaged.

Conserve Energy

Switch off all electronic & electrical appliances when not in use.

Save Water

- Turn off the tap properly after use
- Repair all leaks

WHY WE RECYCLE?

We do recycling to:

- Preserve the natural environment
- Ensure a healthy and clean environment
- Prevent pollution
- Recover resources from discards
- Save costs and money
- Save trees
- Save energy
- Save waste disposal costs
